"I think those who are happiest here are active. They see the beauty in all the brown of the desert. They love the sunshine and enjoy the relaxed lifestyle."

The Board by Board Design mission statement is centered on a goal of making each space about the homeowner and not the designer. "The essence of good design will always be about people and how they live," says principal Christie Board. "I don't want to be the designer where every job looks the same." The full-service firm is split into two key pursuits: the building of custom homes, led by Board's husband, Robert, and the design of interior spaces, including kitchens and baths. Residents of Prescott, Arizona, for more than 16 years, the Boards are experts at achieving the varying wants and needs of local homeowners. "The Western, Indian and Mexican influences will always be a strong design feature because of the history in this state," Board says. "We are seeing a trend toward contemporary and transitional interiors, but those rustic touches will always stay relevant here." Board is known for her process, in which she enables the client an understanding of "the science of putting materials together successfully," an important skill when working with a variety of aesthetic preferences. Asked to shed light on her affinity for northern Arizona, Board's answer is charmingly simple. "I love the sunshine," she says. "We lived in the Northwest for years, and it is beautiful on a sunny day, but those can be few and far between. Here the sun shines every day. It's a happy place."

NORTHERN ARIZONA'S ADVANCEMENT: A CONVERSATION WITH CHRISTIE BOARD

What makes northern Arizona a unique place/destination? What drew you to it? We came to Arizona for better weather and Prescott for a great community in which to raise our son. **How do you view northern Arizona changing over the next decade?** It is continuing to grow. More people are retiring here or adding a second home. I like seeing the growth, but I hope it will always maintain the spirit of the Wild West. **Do you often work on second homes?** About 30 percent of my clients have second homes either here in Prescott or elsewhere in the region.

Spotlight on Prescott

"Everyone who comes here is charmed by this little town," Board says. "With the picturesque courthouse on the town square and antique stores galore, it's a fun place to visit. A lot of Prescott residents have a summer home here and a winter home in Phoenix. It offers the best of both worlds as far as travel time and year-round temperature."

1. The client wanted a kitchen that made a statement and better used the space. The custom range hood and classic glazed white cabinets are just two of its special features. 2. This master bath is a mix of mosaic marble tile creating inlaid tile rugs, an imported pedestal bathtub and butternut cabinets.
